THE BREITBART CORONER: THE MYSTERIOUS DEATHS OF ANDREW BREITBART & MICHAEL CORMIER (CONSPIRACY DEATHS BOOK 1)

Michael Arthur “Mort” Cormier

Seems to have died of Arsenic poisoning about a month and a half after autopsy on Brietbart. During that month and a half attention was focusing on what Brietbart had been reporting and the cause of the death of Andrew Brietbart. It was the same day the Brietbart cornoer's report was made available to the public.

Andrew James Breitbart Died: March 1, 2012 (age 43 years), Ronald Reagan UCLA Medical Center, Los Angeles, CA. His family asked to see if Ciannade was present and it was not. Michael Arthur “Mort” Cormier Birth 7 Jun 1950 Rumford, Oxford County, Maine, USA Death April 21, 2012 (aged 61) Burbank, Los Angeles County, California, USA

DISCREPANCIES AND POLITICAL CONNECTIONS

Michael died from arsenic poisoning, and the Los Angeles County Coroner's Offce published the PRELIMINARY AUTOPSY REPORT on Andrew Breitbart the same day - not a mere coincidence any more when you add the evidence of the toe tag.

Did Michael find something during the private autopsy of Breitbart that contradicted the Los Angeles Coroner's Offce and their toxicology results? Family and friends have stated that Michael always carried a small blue journal that included poetry, and notes from cases. The notebook has not been recovered and was not included in the personal belongings given to Michaelis wife.

According to the retired F.B.I. agent I communicated with, the Los Angeles Coroner's Offce answers to the Mayor of Los Angeles. At the time of Andrew Breitbart's and Michael Cormier's death, Antonio Villaraigosa served as the Mayor for Los Angeles (2005-2013). He was a member of President Obama's 2008 Economic Advisory Board and the Chairman of the 2012 Democratic National Convention. Antonio Villaraigosa has beaten or paid fines related to ethics violations -- he is currently a Democratic candidate for the Governor of California.

If Michael's stomach contents were preserved, the exact origin of the arsenic could've been traced. Dan Anderson told Ed in a phone conversation that he couldn't find a lab to perform the tests needed on the blood.

Michael ingested enough arsenic in the last 24/48 hours of his life that it crystallized in his stomach. The stomach contents were never sent to a private lab nor tested within the Los Angeles Coroner's Offce. Why?

And why did the blood tests take over two years to perform?

https://en.wikipedia.org/wiki/Antonio_Villaraigosa

Antonio Ramón Villaraigosa (/ˌviːəraɪˈqoʊsə/; né **Villar Jr.** on January 23, 1953) is an American politician who served as the 41st Mayor of Los Angeles from 2005 to 2013. A member of the Democratic Party, Villaraigosa was a national co-chairman of Hillary Clinton's 2008 presidential campaign, a member of President Barack Obama's Transition Economic Advisory Board,[1] and chair of the 2012 Democratic National Convention.[2]

Before becoming mayor, he was a member of the California State Assembly (1994–2000), where he served as the Democratic Majority Leader (1996–98), and the Speaker of the California State Assembly (1998–2000). As speaker, Villaraigosa was an advocate for working families and helped to write legislation protecting the environment, expanding healthcare access, and increasing funding for public schools.

He ran for mayor in 2001 against Los Angeles City Attorney James Hahn, but lost in the second round of voting. Villaraigosa ran for and was elected to the Los Angeles City Council in 2003. In 2005, he ran for mayor again in a rematch against Hahn and won. During his tenure as mayor, he gained national attention for his work and was featured in *Time*'s story on the country's 25 most influential Latinos. He was the first Hispanic in over 130 years to have served as mayor of Los Angeles. As mayor, Villaraigosa spearheaded policies to improve student outcomes in the Los Angeles Unified School District, reduce city and highway traffic, and enhance public safety.

Since leaving office in 2013, Villaraigosa has continued to be actively engaged in education, civic engagement, water, immigration, transportation, and economic development issues. He speaks nationally and throughout California on these issues. In November 2016, Villaraigosa announced his candidacy for the 2018 California gubernatorial election.[3][4] In June 2018, Villaraigosa came in third in the blanket primary election, losing to Gavin Newsom and John Cox.[5]

In July 2024, Villaraigosa announced his candidacy for the 2026 California gubernatorial election.[6]

Michael Cormier Autopsy Report Form 12, page 8:

Dr. Ortiz — Opinion:
"The demise of this 61-year-old is the result of acute intoxication by arsenic. Arsenic is a metalloid element, whose effects are produced by blockage of the intracellular metabolic pathways with resultant cessation of cellular activity and death. The symptoms of acute arsenic intoxication are nonspecific and mainly are gastrointestinal (nausea, vomiting, diarrhea, etc.), such as manifested in this case, which slowly progressed to multiorgan failure and death. Arsenic can present as the salt of the element (inorganic) or compounded with organic molecules (so-called organic).

The most toxic is the inorganic variety. In this case, the source of the arsenic remains unknown in spite of multiple attempts to characterize it."

Cyrus Rangan M.D./MedicaI Toxicologist states to Chie Medical Examiner Lakshmanan in the Forensic Consultant's Report Form 13:

> "Upon initial review of this case, I had inquired as to whether the arsenic levels could be speciated, to determine the relative contributions of trivalent and pentavalent arsenic to his total arsenic level. In addition, I had acquired as to whether the stomach contents could be further tested to determine the form of arsenic salt that was detected. These inquiries were an effort to characterize the decedent's exposure specifically, with the prospect that a potential source of arsenic might be determinable. I was informed that these advanced tests would not be possible. Therefore, my conclusion based on available data is that the decedent died from severe acute arsenic poisoning of unknown origin. The clinical presentation and the level of arsenic detected in the blood and stomach are consistent with a large, recent intentional exposure."

Ed Donegan -One of the things I noticed (and others noticed) is in the frame-by-frame analysis of the Harvard Silver Tails video Brietbart had obtained in one version of it (like the Zuprader film this is and altered version of it) a Michelle Obama looking person appears to be a male. That frame-grab from one of the versions is in these books. Would people kill to keep that secret? Brietbart was Gay and a log cabin libertarian but there was a much more important storyline than the trans history of a POUTS family member and what was that story-line of the Obama family?

300 JOHN/JANE DOE CASES taken from the book

10,OOO AUTOPSIES CONDUCTED

Michael worked on and around cases like Michael Jackson, Whitney Houston (took photos) and Brittany Murphy (assisted on autopsy).

The mysterious interactions of actress Brittany Murphy towards the end of her life are mind-boggling. Her husband, Simon Monjack, found her lifeless in the bathroom. Toxicology results from the Los Angeles Coroner's Offce attributed her death to pneumonia and prescription pills (hydrocodone). She had stopped breathing, ruled an accident.

Brittany Murphy's father, Angelo Bertolotti, requested a private tox-screen, and the results didn't match the findings of the Los Angeles Coroner's Office. Ten different toxic metals were found in samples from Brittany Murphy's hair.

Bertolotti found out that a *Mees' lines examination (nail discoloration that could be a result of poison) was not* performed on Murphy's body by the Los Angeles Coroner's Offce. Five months after Murphyjs death, Simon Monjack suffered the same fate. [Ted Gunderson' doctor did examine the nails of Ted Gunderson and saw they hard turned black and that was a sympton of arsenic poisoning.]

Ed Winter told CNN: "*Just like Brittany" when referring to Monjack's death. Renowned pathologist Dr. Cyril Wecht told E! News after reviewing Brittany Murphy's autopsy results: "I had questions initially, and those questions remain.*"

QUOTES FROM L.A. CORONER'S OFFICE & L.A.P.D.

Detective Steve Castro's quote to the DailyBeast.com:

> "Back in the day, they sold straight arsenic to kill insects. Now it is monitored so closely

> you can't basically get it. The puzzling thing is where the arsenic came from."

Detective Rich Wheeler's quote to the DailyBeast.com:

> "It had nothing to do with that (Breitbart's autopsy He had nothing to do with the autopsy or anything to do with the case That story is based on rumor and innuendo."

Lieutenant Hamilton's statement to the DailyBeast.com:

> "We have information that could potentially include foul play. We are not ruling anything out."

Ed Winter quoted to the DailyBeast.com regarding the arsenic:

> - "He had a history of heart problems, but it was the arsenic that killed him."
> - - "We don't know if it was given to him or self-ingested,"
> - - "We can't prove he took it himself, or we can't prove someone gave it to him."

This photo also in my books is not the same photo screen shot Brietbart had but is similar and easily found on the intenet and is in my books too.

What if -

The Windsors of German FOXP2 Dysgraphia origin (Like Albert Einstein) through King George V decedents like King Edward VIII work with Hitler on MKLUTRA through speech therapist Sidney Gottlieb.

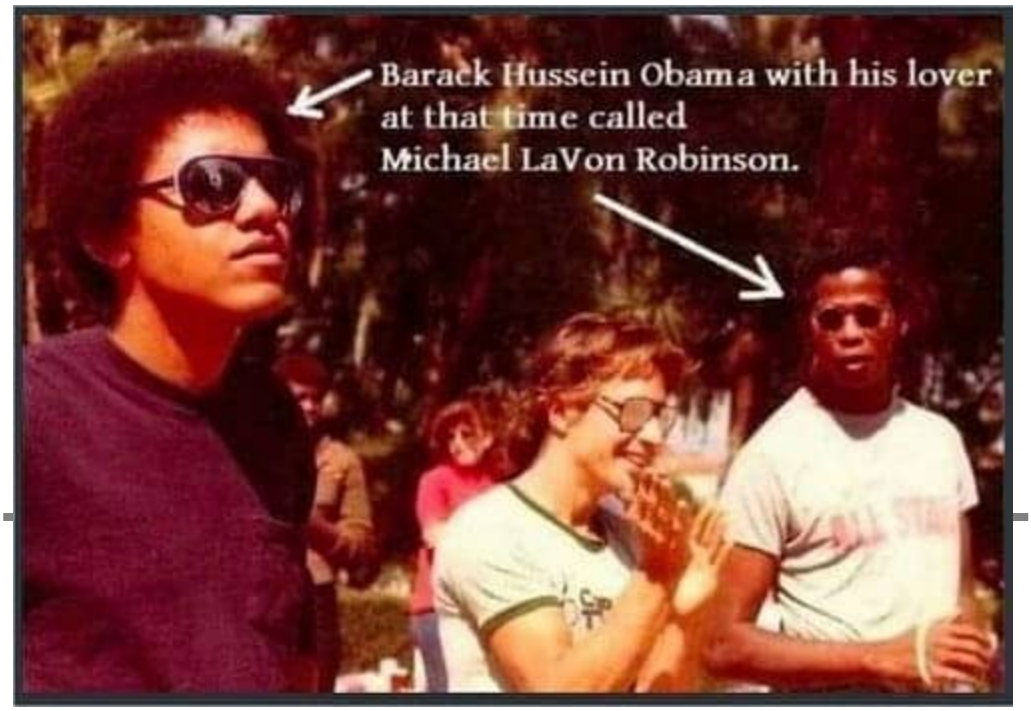
A still frame from the unedited Brietbart Silver Tails video show Michelle Lavon Robinson as male. A white male is in-between the two clapping his hands as events unfold at the rally.

IS Michael LaVaughn Robinson of Chicago as a male seen in Barrack Obama Jr Harvard Silver-Tails aka old hippies video also Michelle LaVaughn Robinson Obama of Chicago.

Like the found Mombasa Birth Certificate a Hair Club For Men card does exist as does the Breitbart video he was going to break a major story with. Both show the Micheal LaVon Robinson entity of Euclid Street Chicago. That personal identity is very close to Michelle LaVaughn Robinson of Euclid Ave that same era.

Micheal Hastings and Andrew Breitbart were really on to the Windsor FOXP2 family branch and the use of that DNA in Obama who tested clean of Dysgraphia at birth, and that on the maternal side, Michelle Obama is actually Micheal Lavon Robisnom, a placeholder in an alleged family tree while Glorian Donegan

mitochondria is still used in the Obama family and at 2 minutes 46 seconds into the Andrew Breitbart video that Michelle Obama is seen as a man.



Did Eva Rousing ever meet Micheal Lavon Robinson, or was she in the Brietbart found video of his silver tails speech?

EXCLUSIVE: Family of tragic Tetra Pak wife Eva Rausing reveal she began dabbling with 'hard drugs' while at the same college as Barack Obama retrieved from link and copied or modified to here

https://www.dailymail.co.uk/

Tragic billionaire's wife Eva Rausing became fascinated with 'hard drugs' while attending the same California college as Barack Obama, her family has revealed.

The mother-of-four was found dead on Monday in the £70 million London mansion she shared with her husband, Tetra Pak heir Hans Kristian Rausing, who has been been arrested on suspicion of her murder.

Mrs Rausing, who had a well documented drug addiction up until her death, studied at Occidental College, a private liberal arts college in Los Angeles, at the same time as the current US president.

THE BREITBART CORONER: THE MYSTERIOUS DEATHS OF ANDREW BREITBART & MICHAEL CORMIER (CONSPIRACY DEATHS BOOK 1)

JOHN PODESTA AND DAVID BROCK

Breitbart's tweets often targeted John Podesta. John Podesta is President Clinton's former Chief of Staff and was Hillary Clinton's manager for her Democratic Presidential campaign for the 2016 Presidential election. John Podesta also held a position on the ACORN advisory board. He would later be front-and-center of an email hack released by WikiLeaks in 2016. The emails exposed a strange correspondence within the Clinton campaign staff — including one particular email that led to the conspiracy theory known as "Pizza-Gate."

…

Breitbart hated David Brock, a Liberal political operative who founded Media Matters for America. With the help of George Soros in 2010, Brock created a Super PAC for Hillary Clinton and other Democratic candidates. David Brock's tactics are aggressive as he employs Bots and Trolls to conduct "Internet Comment

Infiltration." In 2012 he was blackmailed by an ex-lover for $850,000 in-regards to crucial information of donors and I.R.Sdocuments he had on Media Matters for America.

Andrew Breitbart died two days after the tweet below. [Tweets show allegations of child sex slavery, etc. These also were the allegations of Jen Moore and my self Ed Donegan. Veronica Hoffman was a role-player in that operation shaking down an adult role-player of Ed Donegan (but not Ed Donegan) over allegations "Pizza" had been served for viewing in the restaurants.]
